About Me

I've been passionate about design, development and animation since 2003. It started as a hobby and quickly turned into a full time job. I'm ambitious, punctual and always eager to learn new things. Everything I know, I've learned by myself through various online resources.

Employment History

I've worked for multiple companies over the years, part time, full time, on site and remotely. Between 2014 and 2016 I worked as a web design director for Sketchdeck, a company from San Francisco. Since, I've been working on Tome of Heroes, a mobile game I'm building by myself.

Current Interests / Hobby

At the moment I'm very passionate about mobile gaming. Tome of Heroes is a game that I built by myself and am still developing. You can learn more at www.tomeofheroes.com

Education

I have a degree in Marketing from the Academy of Economic Studies in Bucharest. Most of the learning however I've done by myself out of passion.
